PROFESSIONAL SUMMARY

An adaptable and goal-driven IT professional with a strong background in software development, web design, and technical troubleshooting. Proficient in Python, C, HTML, CSS, and JavaScript. Experienced in leadership, mentorship, and entrepreneurship. Passionate about leveraging technology to solve problems and improve efficiency. Highly organized with excellent communication and teamwork skills.

CAREER OBJECTIVE

Aspiring Software Developer seeking an industrial attachment in IT to bridge academic excellence with real-world challenges. Eager to leverage my strong foundation in software development, system analysis, and technical troubleshooting to deliver innovative solutions. Motivated to contribute to a dynamic team, enhance process efficiency, and gain invaluable hands-on experience that drives both personal and organizational growth.

PROJECTS & TECHNICAL EXPERIENCE

- Trading Bot: Analyzes financial markets and provides trade recommendations.
- Loan Application System: Assesses user credit scores and eligibility for loan applications.
- Movie Streaming & Download Website: Allows users to stream and download movies.
- Disease Analysis System: Accepts user symptoms, analyzes them, and suggests possible diagnoses.
- Calendar: Displays a functional calendar with date tracking.
